

Hello,

I heard about the new issue regarding the LPFM broadcast service and how this could affect Air 1 Radio. I wanted to tell you from the bottom of my heart that I think this would be a very unfortunate decision and I would love to tell you why.

1) The way Air 1 serves me as a resident of my local community. Air 1 provides commercial free, wholesome, clean, good for you soul music. There is no other local radio station that even comes close to Air 1. It is a very uplifting radio station and it is nice to know I can always trust tuning in and knowing what I will hear. No crude talk by the DJ's, the music I hear, etc.

2) The effect on my local community would be affected. Air 1 radio promotes giving to people's local rescue missions. I hear testimonials on their radio of how these shelters have got people's lives turned around. It is truly amazing and has spurred me on to give to rescue missions in my area. They promote building community and living a life full of love. You just don't get this from your other stations.

3) Air 1 is in the public interest in my own community as well as in communities around the world. A few months ago, Air 1 ran a pledge drive for Cambodian orphans and raised several hundreds of thousands of dollars!!! This radio station has compassion for the hurting and wants to help everyone. If Air 1 is taken from my community, there is no alternative. None.

Thanks for your time and I truly hope you understand these words are from my heart.

Sincerely,

Jason Reid Stolfo
